IT Skills

Security / Networking
Wireshark, Nmap, TCP/IP, DNS, TLS/mTLS, WebAuthn

Systems / Enterprise IT
Windows, Linux, ServiceNow, Microsoft Intune

Programming
Python, Java, C, C++, SQL, Assembly

Development / Tools
Spring Boot, REST APIs, WebCrypto, Git, Maven

Languages

French C1

English B2

Fulani Native

Luxembourgish A1

German A1

Arabic A1

Strengths

Analytical, rigorous, autonomous, team-oriented, solution-focused, adaptable and service-minded.

Interests

Cybersecurity, technology, music, fitness, running, swimming.

IT Experience

IT Service Desk Student — Cargolux Airlines International Jul. – Sep. 2026
Luxembourg
- Provided first-line IT support and assisted users with day-to-day technical issues.
- Handled and tracked IT incidents and service requests through ServiceNow.
- Supported endpoint and device-related activities using Microsoft Intune.
- Assisted with hardware, software, access and user support requests.
- Worked in accordance with corporate IT security, data protection and confidentiality procedures.

Payment Terminal Preparation Technician — Servipay Aug. 2022 & Aug. 2023
Luxembourg
- Prepared, configured and performed quality checks on electronic payment terminals.
- Provided first-line support and followed up on technical requests.
- Worked according to established procedures, controls and quality objectives.

Academic Projects

Secure Client/Server System — Medical Records 2025
Spring Boot, WebCrypto, TLS 1.3/mTLS, WebAuthn
- Developed a secure REST API with encrypted data storage.
- Implemented client-side cryptography using AES-256-GCM, RSA-OAEP and RSA signatures.
- Implemented mTLS (X.509), WebAuthn/MFA and append-only logs protected by a hash chain.

Network Security Analysis — Samsung Smart TV 2025
Wireshark, Nmap, Linux/Windows
- Captured and analysed LAN, DNS and TLS network traffic.
- Mapped network flows and services, identified risks and proposed recommendations.
- Performed limited network scanning and interpreted the results.

Multithreaded TCP Client/Server Image Search 2023
C/C++, TCP Sockets, Threads, Makefile
- Extended an image-search application with a TCP client/server architecture.
- Implemented a multithreaded server with three threads per client and synchronization.
- Implemented image transfer over the network and signal handling in a multithreaded context.

Education

Master in Cybersecurity, Université Libre de Bruxelles 2025 – Present
Specialisation: System Design and Analysis
Brussels, Belgium — taught in English
Relevant coursework: Computer System Security; Corporate Information Security; Network Security; Secure Software Design & Web Security; Forensics & Reverse Engineering; Security Analysis.

Bachelor in Computer Science, Université Libre de Bruxelles 2021 – 2025
Degree obtained in 2025
Brussels, Belgium

Secondary School Diploma, Lycée Technique du Centre 2019 – 2021
Luxembourg

Additional Experience

Multi-skilled Employee — Aral Summer 2025
Capellen, Luxembourg
- Customer service, cash handling, restocking and day-to-day store operations.

Sorting Centre Employee — Post Luxembourg 2021
Bettembourg, Luxembourg
- Sorted and prepared parcels while meeting operational deadlines and established procedures.

Waiter and Delivery Driver — Dolce et Picante 2020
Luxembourg

Waiter and Delivery Driver — Tommy's Box 2019 – 2020
Luxembourg

Cleaning Agent — NettoService 2017 – 2018
Luxembourg
